

What is Atlantic BioProcessing Summit?

Atlantic BioProcessing Summit is the reference forum of the bioprocessing industry in the European Atlantic Region.

An international event that brings together science, industry and investment to drive innovation in bioprocessing.

JUNE 17

20
25

First Edition

An annual event which is set to become the **key meeting point** for all stakeholders involved in the bioprocessing value chain.

The perfect setting to generate business

An ideal platform to make **connections**, foster **synergies**, generate **business opportunities**, and engage with investors and customers.

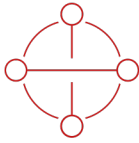

Extensive programme of activities

The Forum provides an insight into the latest trends in bioprocessing and serves as the **leading event** for the international industry with a comprehensive conference programme

Objectives

Generate **business** and new **customers**

Expand your **network of contacts**

Connect with **investment** and **talent**

Bring **research** and **industry** close together

Discover **products, services** and **trends**

Position **innovation projects**

Enhance your **image** and **brand**

AN EVENT ORGANIZED BY:

The Galician Life Sciences Technology Business Cluster (Bioga) has been supporting the Galician biotechnology ecosystem for 15 years, becoming the voice of the region's biotech industry.

When and Where?

SANTIAGO – 17.06.2025

Atlantic BioProcessing Summit will take place on 17 June 2025, in Santiago de Compostela (Galicia), the epicentre of collaboration and project development between universities, companies and institutions.
